

# CARSON PIONTEK, AIA

## MANNING, APC

---

Inspired by the collaboration of owner, architect, and builder in the design and construction process, Carson brings this ethos of teamwork to projects. He has contributed to a wide range of projects, including master plans, historic renovations, and new construction. In addition to his role on projects, he has been instrumental in the development of Manning's Sustainability Action Plan, and he is responsible for the firm's drawing systems as our Building Information Modeling (BIM) Manager. In that role, he facilitates Manning's collaboration with consultants and clients through design and documentation. That collaboration through each design phase supports a creative design approach, integrated documents, and an expedited process.
