

# JAYCIE E. MADONALD, WELL AP MANNING, APC

---

Jaycie is a dedicated and collaborative team member whose broad project experience spans all phases of design and a wide range of project types. She brings a unique perspective through her background in hands-on fabrication, having worked as both a designer and machinist to create large-scale steel art installations.

Jaycie is a WELL Accredited Professional and has contributed research that informs Manning's sustainability standards. She has been recognized with awards in both design and communications, underscoring her creativity and ability to effectively communicate ideas. Jaycie strengthens project teams, bringing technical expertise and a commitment to creating positive impact.
